

Features

- Built with a HEPA 14 air filtration
- Integrated plumbing
- Integrated head services
- Plug-and-play system
- Antimicrobial finishes and materials
- Writable surfaces
- Custom graphics
- Casework

Benefits

- Clean Construction
- Sustainable Construction
- Cost Effective
- Flexible, Adaptable & Future Proofing
- 10 Year warranty on materials
- Easy to install, disassemble and reconfigure
- Acoustic Performance
- Meets infection prevention compliance

Negative or Positive Pressure Pods

VISION

Tailoring designs to your requirements is our priority.

Whether you require prefabricated products, walls, or Segregation Pods, our designs are customised to fit your buildings footprint.

CONCEPT

We utilise cutting-edge ICE software to swiftly generate photorealistic visual packages and comprehensive cost breakdowns, ensuring design and cost certainty. Our skilled designers leverage their expertise in space planning to optimise your space effectively.

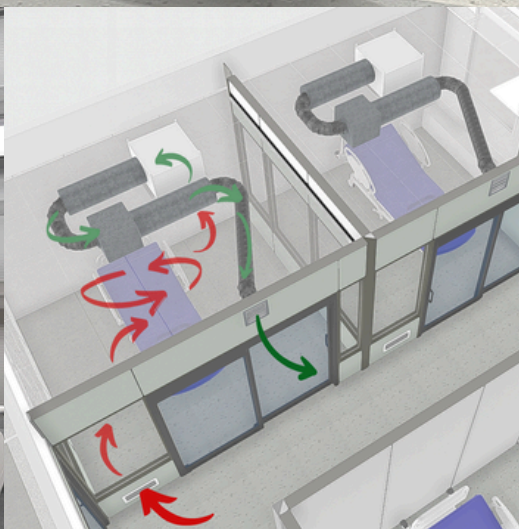

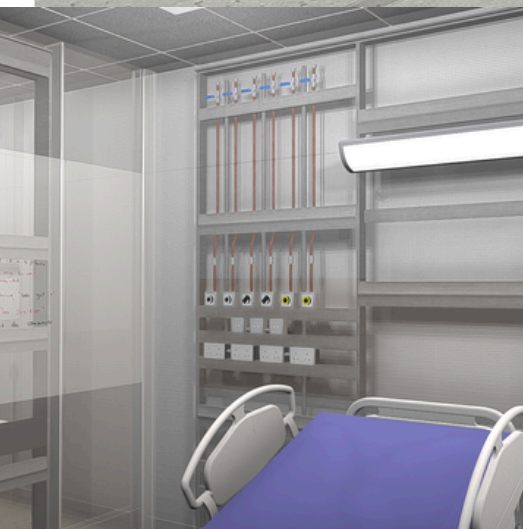

INSTALL

Drawing from our fit-out industry expertise, we offer an all-inclusive design and installation service. Our proficiency in off-site construction, combined with integrated power, plumbing, technology, and medical gases, ensures swift and efficient installations that are both clean and effective.

Features and benefits of the Segregation Pod

- 1** Prefabricated - Framework
- 2** Integrated medical gases & power
- 3** Integrated plumbing module
- 4** Thermofoil panel finish
Meets infection prevention compliance
- 5** Bespoke graphics
- 6** 2000mm clear opening Break-Out door
- 7** Integrated whiteboard
- 8** Integrated HEPA 14 air filtration
- 9** Infection prevention gaskets
- 10** Sliding door mechanism
